

# Enviol Polytech Solutions

## Technical Data Sheet

**Product Name:** RePolyester 2100

**Description:** Recycled polyester polyol for CASE applications.

### *Technical Specifications*

Property	Test Condition	Value	Unit	Standard
Hydroxyl number	-	150 - 174	mg KOH/g	ISO 4629-2
Dynamic viscosity	23°C	16,000 - 31,000	mPa·s	ISO 3219
Water content	-	≤ 0.1	%	DIN 51777-1

**Applications:** Coatings, Adhesives, Sealants, Elastomers (CASE)

**Compatibility:** Compatible with conventional polyurethane systems.

**Storage:** Store in tightly closed containers at 20–30°C. Avoid moisture.

**Solubility:** Soluble in common organic solvents used in PU systems.
